Annwyl Bleidiau Gwleidyddol Cymru

Dyma le rydyn ni'n sefyll, a wnewch chi sefyll gyda ni?

Rydym yn cydweithio â sefydliadau allweddol yng Nghymru sy'n gweithio i fynd i'r afael â'r argyfwng hinsawdd ac ecolegol. Gydan'n gilydd rydym wedi creu chwech egwyddor drosfwaol sy'n ein huno yn ein cenhadaeth i fynd i'r afael â'r argyfwng hwn ac yn rhoi hwb i'n lleisiau ar y cyd. Maent yn seiliedig ar werthoedd a themâu craidd y sefydliadau hyn.

Gwyddom y byddwch yn awr yn paratoi manifestos a pholisïau ar gyfer etholiadau Senedd 2021, a byddwch yn ceisio penawdau ar sut y byddwch yn mynd i'r afael ag argyfwng yr hinsawdd a dirywiad trychinebus natur, yng Nghymru a thu hwnt. Mae rhai sefydliadau eisoes wedi anfon manifestos neu adroddiadau eraill atoch yn egluro'r hyn y maent yn gofyn i wleidyddion ei wneud i fynd i'r afael â'r argyfwng hwn. Mae'r cyfraniadau hyn yn seiliedig ar ymchwil fanwl gan arbenigwyr amgylcheddol, gwyddonol ac arbenigwyr eraill. Gweler y cyfeiriadau isod.

Rydym yn gofyn i bob plaid wleidyddol yng Nghymru i ystyried y dogfennau islaw ond hefyd i dderbyn yr egwyddorion trosfwaol hyn. Credwn fod yn rhaid i'r chwech egwyddor hyn arwain yr ymrwymadau a'r addewidion a wnaed ym mhob manifesto ond hefyd yn ymestyn ymhell y tu hwnt i dymor nesaf y Senedd. Dyma'r unig modd i sicrhau bod Cymru yn wlad sy'n deg ac yn gyfiawn i bawb, sy'n gyfrifol yn fyd-eang ac yn amddiffyn cenedlaethau'r dyfodol.

A wnewch chi sefyll gyda ni i wneud Cymru a'r byd yn lle mwy diogel i bobl a natur?

CYMRU

Y Chwech Egwyddor Argyfwng Hinsawdd ac Ecolegol

1 - Gwnewch yr hyn sydd ei angen i chwarae ein rhan wrth gyfyngu gwresogi byd-eang i 1.5°C, gyda gostyngiadau dyfnach a chyflymach o lawer mewn allyriadau nwyon tŷ gwydr (gweler 1, 7 & 8 islaw).

2 - Hyrwyddo datrysiadau hinsawdd naturiol i dynnu CO₂ o'r atmosffer, atal y dirywiad mewn bywyd gwyllt, adfer natur a helpu i reoli risg llifogydd (gweler pob un islaw).

3 - Adnabod ein hól troed ecolegol byd-eang cyfan a achosir gan yr holl nwyddau rydyn ni'n eu prynu, y bwyd rydyn ni'n ei fwyta, a'r cadwyni cyflenwi rydyn ni'n eu defnyddio (gweler 2,3 & 7 islaw).

4 - Rhoi cymorth i wleidyddion i wneud penderfyniadau beiddgar trwy gynnal Cynulliadau Dinasyddion a mathau eraill o gyfranogiad y cyhoedd, i gyrraedd sero net yn gyflymach a gyda thegwch i bawb (gweler 1 & 7 islaw).

5 - Gwneud lles dyfodol pobl ifanc, a'r cenedlaethau i ddod, yn ganolbwynt i'n pryder, a ffocws ein cynlluniau (gweler pob un islaw).

6 - Cefnogi sectorau economaidd sy'n creu swyddi gwyrdd mewn chwyldro carbon isel a fydd yn gwella ein hamgylchedd, cartrefi a chymunedau ac yn diogelu ein hiechyd (gweler 1,2,3,4 & 8 islaw).

Dear Political Parties in Wales

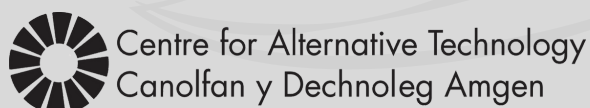

This is where we stand, will you stand with us?

We collaborate with key organisations in Wales working to address the climate and ecological emergency. Together we have composed six overarching principles which unite us in our mission to tackle this emergency and amplify our collective voices. They are based on the core values and themes of these organisations.

We know that you will now be preparing manifestos and policies for the 2021 Senedd elections, and you will seek headlines on how you will address the climate crisis and the catastrophic decline of nature, in Wales and beyond. Some organisations have already sent you manifestos or other reports explaining what they are asking politicians to do to address this emergency. These contributions are based on detailed research by environmental, scientific and other experts. Please see the references below.

We are asking each political party in Wales to consider the documents below but also to endorse these overarching principles. We believe the six principles must guide the commitments and promises made in each manifesto but also extend well beyond the next Senedd term. That is the only way to ensure Wales is a country that is fair and just to everyone, globally responsible and protects future generations.

Will you stand with us to make Wales and the world a safer place for people and nature?

Welsh Parliament elections

The Six Climate and Ecological Emergency Principles

- 1 - Do what it takes to play our part in limiting global heating to 1.5°C, with much deeper and faster reductions in greenhouse gas emissions (see 1, 7 & 8 below).
- 2 - Champion natural climate solutions to remove CO₂ from the atmosphere, halt the decline in wildlife, restore nature and help manage flood risk (see all below)
- 3 - Accept our entire global ecological footprint caused by all the goods we buy, the food we eat, and the supply chains we use (see 2,3 & 7 below)
- 4 - Help politicians to take bold decisions by holding Citizens' Assemblies and other forms of public participation, to get to net zero faster and with fairness for all (see 1 & 7 below)
- 5 - Make the future well-being of young people, and the generations to come, the centre of our concern, and the focus of our plans (see all below).
- 6 - Support economic sectors which create green jobs in a low carbon revolution that will improve our environment, homes and communities and safeguard our health (see 1,2,3,4 & 8 below).
